Benefit: Loved one has access to ER personnel 24/7/365, with False Alarm Prevention

FREEDOM GPS

LOCKABLE GPS LOCATOR WATCH DESIGNED FOR HIGH RISK ADULTS AND CHILDREN

Freedom

\$599.00*

The Freedom GPS locator watch has been designed to help keep track of elderly adults that fall into a high-risk category, like those suffering from Alzheimer's or Dementia, and children.

The urge to wander can be a problem for these adults as well as children, and the Freedom watch contains a location tracker, a panic button, and the **ability to be locked on the wearer so it cannot be inadvertently left at home.**

- ❖ With two different, yet equally effective ways of keeping track of your loved one or child, this location system rises above its competitors
- ❖ If loved one is outside safe zone, watch will respond to “where r u” “safe zone” and “live track” requests so you can quickly locate your loved one
- ❖ The Freedom GPS watch has an **incredible 30 day battery life!**

*Includes one year of basic monthly plan, upgrade to premium plan is \$144.00 for first year

After first year, basic plan rate is \$12.00/month
premium plan is an additional \$12.00/month

HOW IT WORKS
