

**LIVE INDEPENDENTLY & SECURELY!
CARING ASSISTANCE AT THE TOUCH OF A BUTTON, AND
PEACE OF MIND FOR YOU AND YOUR LOVED ONES**

*Regina Hoskins, R.N.
Director, Outpatient Services
Central Baptist Hospital
Lexington, KY*

“My children worry about my health and safety, but I love the independence of living on my own. Instant Care gives me and my family peace of mind. With a single touch I have a team of doctors, nurses, and paramedics helping me, 24 hours a day, 7 days a week. I will live on my own longer thanks to Instant Care!”

Two Buttons: Twice the Care

Medical Question?

1. Press the WHITE AND BLUE (Nurse) button.
2. You are immediately connected to our 24-hour Nurse-Line center through our console.
3. Our Care Specialist will answer your medical questions or assess your medical needs.

Medical Emergency?

1. Press the RED (Emergency) button.
2. Your emergency response system is activated.
3. Our Care Specialist will talk to you through the Instant Care Console. If this is a medical emergency, or if you do not respond, Emergency Medical Teams are dispatched to your home.
4. Our Care Specialists will stay on the line until help arrives. Your loved ones and others you choose will be immediately contacted.

Instant Care – Common Questions

Q. Why Instant Care?

INSTANT CARE

HELP IS JUST A TOUCH AWAY

24-hour Instant Nurse Helpline & Emergency Response Services

Prevent emergencies before they happen!

Our 2-button remote and console system Helps Safeguard Your Life!

Our Personal Emergency Response System does one better than the competition – not only does it have an Emergency Button you can press 24 hours a day to be connected with our Emergency Response Services, it has a Nurse button that you can press 24 hours a day to be connected with an Instant Care Specialist who will answer all your medical questions, whatever they may be.

One of the best features of this product is no matter how many times you push either button, you pay only one low monthly price for both Emergency and Preventative Care!

Our Buttons May Save Your Life In An Emergency

Emergencies can happen at any time; you may have only seconds to react! With the touch of a button you'll be in contact with an ER Care Specialist who will assess the situation and take appropriate actions. If you are unable to respond ER Medical Teams will be dispatched immediately.

Our Nurses May Prevent Some Emergencies From Even Happening In The First Place

With a single touch of a button you are in contact with an Instant Care Specialist who can provide you with knowledgeable medical assistance whenever you need it, as often as you need it.

Do you know what the early warning signs of heart attacks and strokes are?

Our nurses can tell you!

In many cases emergencies can be addressed days in advance. Only Instant Care provides both emergency response and preventative care!
